Achievement. All 44 high schools identified as having performance composites where policy intervention may be needed in order to move students to higher learning opportunities. Board members are expected to receive a presentation on software that would be appropriate to preK-2 students. Board members will avail themselves of similar opportunities.

**Discussion Agenda**

- Discussion of using preK-2 software
- Board members are expected to receive a presentation on software that would be appropriate to preK-2 students.
- Board members will avail themselves of similar opportunities.

- Discussion of the long-range facility plan
- Every five years, each school district is required to submit a long-range plan to the Sate Board of Education. The plan is approved by the State Board, if the school district has reviewed and approved any long-range facility plans for the four years prior to the submission, and the North Carolina Department of Public Instruction.
